

RoHS [Restriction of the use of certain Hazardous Substances in electrical and electronic equipment]

The raw materials used by emtechnik meet the requirements of the RoHS directive 2002/95/EC, RoHS directive 2011/65/EU and RoHS del. directive 2015/863/EU. That means they contain no lead, cadmium, chromium VI, mercury or the flame retardants PBB and PDBE or the plasticisers DEHP, BBP, DBP and DIBP, and that such materials are also not used anywhere in the production process.
